3) Well, i don't know but still i have some personal goals for this year at school. In this year at school, i would like to improve and increase my english level. I learned english by myself at the age of ten or eleven. It was funny and easy but still i have some grammatical mistakes. Also i need to improve my math. Math is difficult and getting harder. I guess that's all, i still need time to think about it. About sports and activities. I'm not very well at sport. Maximum i can do is play volleyball and just stand there. I don't like football and basketball, i don't even know how to play these. In conclusion i can say that i don't have any sports and activities i will try for this year at school.

Also i forgot to tell that i would like to learn any other languages like French, German and e.t.c, And improve my drawing skills, but we don't have these lessons at school, but that's still not bad.

I want to study not only english and math, i will also study other subjects like physics, chemistry, history and e.t.c. I know that my personal goals for this year at school is about to improving my subjects level without anything interesting but i want to try something that i never tried. I guess that's the end. But maybe something interesting will happen that i will change my opinion or some new sport activities that i would enjoy. I never thought about my personal goals before.

Kazakhstan's national food cooked with meat. In my home we often use meat for our lunch or dinner. Every family's typical dinners are soup, beshbarmaq, kuyrdak or different food with meat. Kazakhstan's food is ~~the~~ natural and useful for our health. ^{In my opinion} If every person eat our national food of the day, he will be strong.

For breakfast kazakhs have maybe dairy product: milk, butter, cheese and kurt. And egg, fruits, vegetables, sandwich and for drink tea or coffee. This is our typical breakfast.

My favourite programme is „Space“ of Ninety-one. Because this is so interesting and funny. They take of video their daily life and interesting moments. I will be happy, when I watch this programme

The most popular TV programmes are songs, dances, dramas, films, games and sports. etc. These are mostly entertainments

For discussion programmes have „Yerkin format“ and „AdminAnon“ These programmes talk about government problems and people's views. I think really bad programmes are „qosline“ and „bir bolaiyk“ Because in this programs there are fights and defamations of other people
